“SKEMA’s Master in Management is a truly excellent experience with flexible study options

allowing one to pick a specialisation as well as a campus of choice.

The diversity of our class along with the world-class faculty helps in encouraging our creativity and reasoning to build a wonderful community of leaders globally.

We are taught innovation comes from when you have the freedom to make mistakes, which I experienced first-hand working as a social media manager for my summer internship.,,

Shraddha Shivraj
Master in Management

“SKEMA’s Master in Management has excellent brand value, diversity and flexibility to suit my own learning needs.

Our project groups gave me the opportunity to work with people from all backgrounds. I've benefited from this way of working as it has developed my cultural intelligence and awareness.

My experience so far has been fantastic. I did my first year on the Paris campus and now I am in the third semester on the Suzhou campus, in China, and enjoying learning new topics.

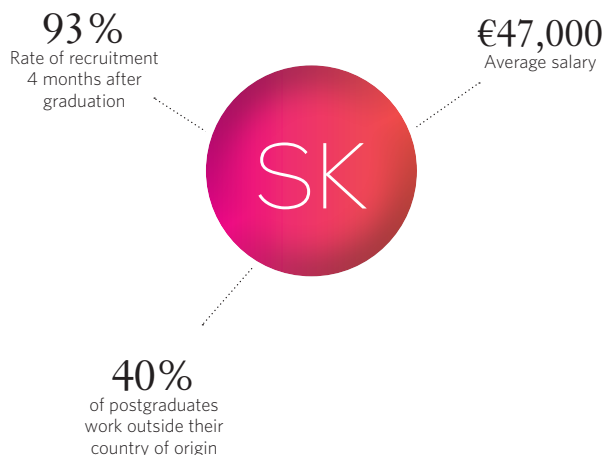

This course has not only equipped me with practical business knowledge but it has also sharpened my interpersonal and soft skills. This programme made me into a well-rounded individual who is ready to take on challenges in the workplace. I have learned that anything is possible.,,
